Mobile: +91-7759978082

Skills

- **Languages:** C++, Java, Python, SQL
- **Frameworks/Libraries:** HTML, CSS, Pandas, NumPy, Matplotlib, Seaborn
- **Data Visualization Tools:** MS Excel, Power BI
- **Tools/Platforms:** Code-Blocks, VS Code, Anaconda, Idle, GitHub
- **ML & Analytics:** Regression, Classification, Clustering, Feature Engineering, EDA, Time Series
- **Soft Skills:** Problem-Solving, Team Player, Leadership, Adaptability

Projects

Student Record Management System | GitHub Link | Live Link Jun '25 – Jul '25

- Developed a Student Record Management System aimed at simplifying and automating student data storage, retrieval, and management.
- Implemented key features such as student registration, record updates, search and deletion using HTML, JavaScript, CSS and DSA — applying file handling, CRUD operations, data validation, and modular programming.
- Achieved a **60% reduction in manual effort** and improved data retrieval speed by up to **50%**, enhancing overall efficiency of student record handling.
- **Tech Stack Used:** HTML, JavaScript, CSS, DSA

Modern Crime Insights | GitHub Link | Live Link Mar '25 – Apr '25

- Analyzed crime data from 2020 onward to identify trends, patterns, and correlations related to crime locations, timings, and types.
- Processed large datasets using Python (Pandas, NumPy), Matplotlib/Seaborn, Power BI, and SQL — applying data cleaning, EDA, visualization, and trend-analysis techniques.
- Delivered insights that improved pattern detection accuracy by **50%**, enabling clearer identification of high-crime zones, seasonal spikes, and shifts in crime categories.
- **Tech Stack Used:** Python, Pandas, NumPy, Matplotlib, Seaborn, Power BI, SQL

Training

Fundamental of Data Structure: Learn, apply and build projects – LPU Jun '25 – Jul '25

Data Structure with Java

- Studied the fundamentals of data structures to understand their role in efficient data storage, retrieval, and problem-solving.
- Designed core data structures — arrays, linked lists, stacks, queues, trees, graphs, and hash maps using Java, applying time complexity, recursion, OOP, and algorithm optimization.
- Improved program efficiency by up to **40%** through optimized data-structure selection, resulting in faster execution and better memory utilization.
- **Tech Stack Used:** Java, Data Structures, OOP, Algorithms

Certificates

- Cloud Computing – NPTEL | Link — Apr '25
- Fundamentals of Network Communication – Coursera | Link — Oct '24
- The Bits and Bytes of Computer Networking – Coursera | Link — Sep '24
- Introduction to Hardware and Operating System – Coursera | Link — Sep '24

Achievements & Volunteering

- **Sach Show – Subhash Chandra Show | LPU** Nov '25
  Participated in the Sach Show at LPU, gaining exposure to leadership insights, media interaction, and professional communication.
- **Visio Talk: A Picture Perception Competition | LPU** Oct '25
  Contributed to Visio Talk at LPU, strengthening observation, interpretation, and storytelling skills.
- **NGO Participation** Jul '24
  Played a key role in delivering health, education and nutrition support to 50+ families.

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology – Computer Science and Engineering; CGPA: 6.68 Since Aug '23
- **Vivekananda Vidya Mandir** Ranchi, Jharkhand
  Intermediate; Percentage: 71.8% Apr '22 – Mar '23
- **Vivekananda Vidya Mandir** Ranchi, Jharkhand
  Matriculation; Percentage: 85.6% Apr '19 – Mar '20
